PRINCIPLES OF DIGITAL FABRICATION

GROUP 20:

ANTONIA ARVANITAKI
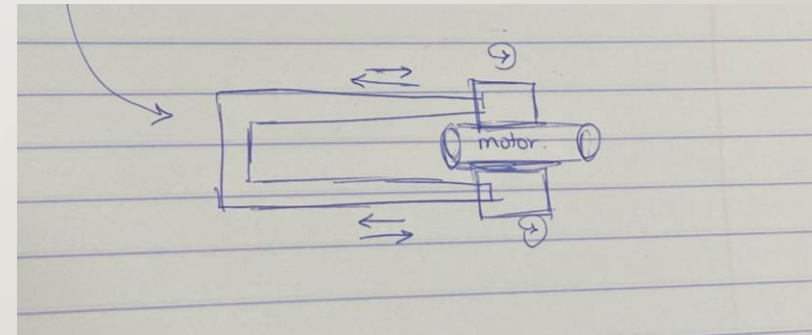

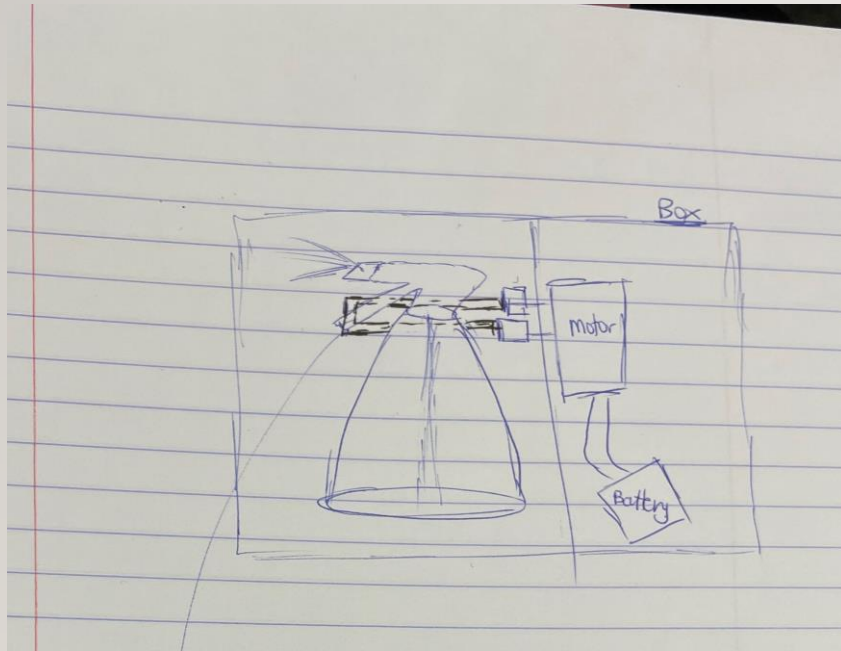

ANIELLO DE SANTIS

ILPO TERVAMÄKI

PROJECT IDEA

- **Refresher gadget**

- It activates a water spray when the temperature is high or when a sensor detects some movement.

- The functionality of the gadget is to make the user feel refreshed in the hot months of the summer.

Example: https://www.youtube.com/watch?v=WIimV5IZIQ4

SKETCHES

LIST OF COMPONENTS

- Arduino

- 1LED

- 1 Servo Motor

- 1 Switch

- motion-detecting sensor

- temperature sensor

- Wires

- Spray Bottle

- Box containing electrical components

- Laser cut plastic

REPOSITORY

- Github
